

myVacBot B100 Vacuum Robot

The myVacBot B100 vacuum robot doesn't only make the hearts of household-grumpies beat faster. With an innovative arrangement of the main brushes, integrated UV-Light and Time Programming the myVacBot puts many vacuum robots in the shade.

Innovative Array of Main Brushes

Two v-shaped main brushes offer an even bigger suction area. Therefore the myVacBot B100 vacuum robot is able to thoroughly remove dirt and dust from hard floors.

Antiseptic UV Light

The integrated UV-Light makes it possible that the myVacBot B100 vacuum robot cannot only leave the floors thoroughly cleaned – but also aseptic. The UV-Light reliably kills bacteria and other microorganisms.

Time Programming

To make floor cleaning even more easy, the myVacBot B100 vacuum robot is featured with a useful time programming function. Once programmed, the myVacBot B100 vacuum robot reliably carries out its cleaning tasks.
